

ideal lux.

Essence

Famiglia a **LED integrato** con un'affusolata sezione tonda o quadrata, che gioca sulla compenetrazione di una linea luminosa con un blocco puntiforme.

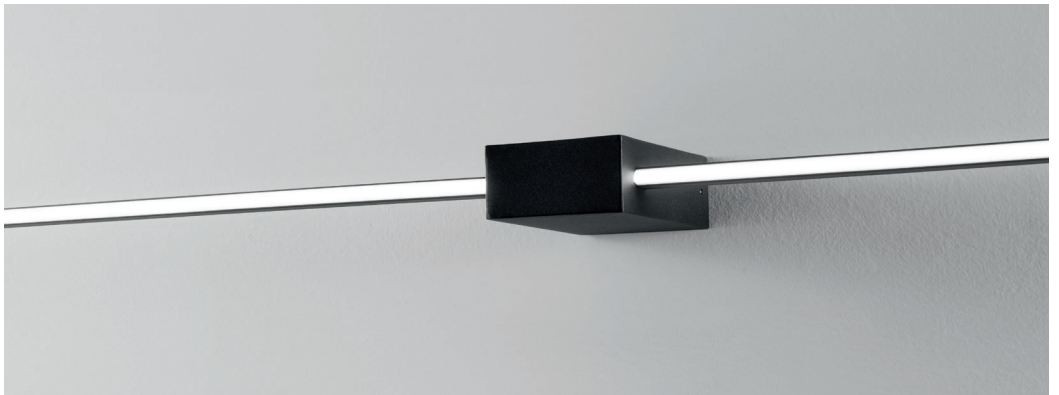

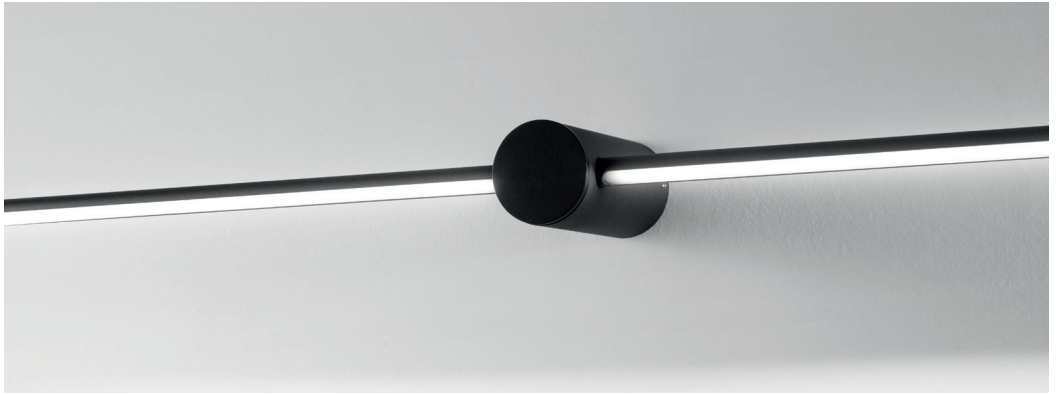

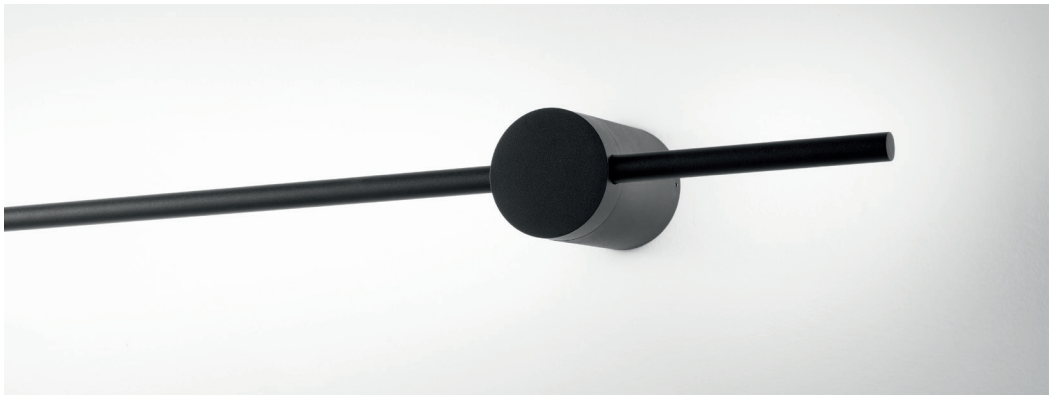

**Una gamma completa:**

sospensioni lineari verticali e orizzontali,  
tre modelli a parete con differenti angolazioni  
dell'emissione, una lampada da tavolo  
e una da terra, per costruire un progetto  
coordinato **con la stessa estetica.**

**Gamma a parete** con diffusore fisso per luce diretta, indiretta verso la parete o inclinata a 45° a seconda del modello.

Finiture **coerenti e contemporanee:**  
bianco, nero, ottone, con **corpo in alluminio**  
verniciato o placcato.

Bianco

Nero

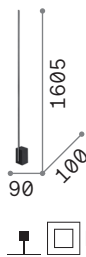

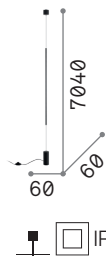

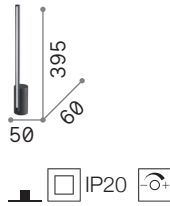

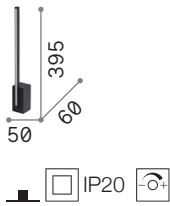

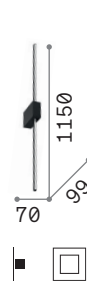

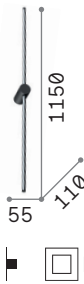

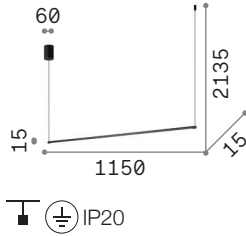

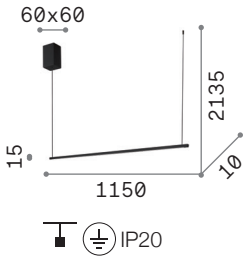

Ottone

Il **diffusore in policarbonato opale satinato**

trasforma lo stelo in una linea luminosa  
continua ad emissione laterale.
